INFORMATION

REGISTRATION FEE

Only 18 places are available for the full course, including attendance to the hands-on section, at a fee of €2.440,00 VAT 22% included. As we strongly believe in the importance of multidisciplinary, in case of a surgical team (otorhinolaryngologist and neurosurgeon), a reduced registration fee will be applied to both members, equal to €2.196,00 VAT 22% included.

The fee includes: entrance to the course, course material, certificate of attendance, coffee and tea breaks, lunches and social dinner. Only nine places for Observers are available at the reduced fee of €976,00 VAT 22% included.

The fee includes entrance to the course with observation of the hands-on phase in the anatomy laboratory, attendance of the live surgery section, certificate of attendance, coffee and tea breaks, lunches and social dinner. The registration must be sent to the Organizing Secretariat within June 8th via fax or e-mail, along with the payment.

REFUND POLICY

Cancellations received within the registration deadline (June 8th): 70% refund. Cancellations received beyond the registration deadline: no refund. The name of the participants can be changed within seven days prior to the course.

CANCELLATION POLICY

In the unusual circumstance that the course is cancelled, two weeks notice will be given and the fee will be refunded in full. The Organizers are not responsible for any airfare, hotel or other costs incurred.

INSURANCE

Organizers do not accept responsibility for individual medical, travel or personal expenses. Participants are strongly advised to take out their own personal insurance policies.

ACCOMMODATION

For information please contact the Organizing Secretariat.

JULY 9 | 13 2018

BRESCIA – ITALY

Transnasal
Endoscopic
Surgery:
from sinuses
to skull base

HANDS-ON
*Anatomy Laboratory
and Live Surgery*

Aim of this course, which is now in its fourth edition, is to offer an overview of the applications of trans-nasal endoscopic surgery, starting from simple procedures performed under local anesthesia to more extensive operations adopted for inflammatory disease, benign and malignant sino-nasal tumors, skull-base diseases, sellar and parasellar lesions, down to the clivus, nasopharynx and cranio-vertebral junction.

Also thanks to the University of Brescia support, the course will provide a hands-on session, followed by an interactive live surgery section.

The first three days will be dedicated to the endoscopic endonasal dissection of injected, fresh frozen specimens. At the Gross Anatomy Laboratory of the University of Brescia directed by Prof. Luigi F. Rodella each working station is complete of endoscopic skull base surgery equipment, as well as CT-based navigation. Two participants and one observer will be assigned to each station and will be supervised by at least one faculty member to allow for a personalized tuition. Each step will be preceded by 3D-HD videos explained by the faculty members, as well as demonstrations with 4K technology.

The following two days will be dedicated to live surgery, with three running operating rooms, in which different operations will be shown and discussed step by step. As well as watching the operations from the connected meeting room, participants and observers will have the chance of observing surgery directly in the OR. Lectures will be provided by the local and international faculty, all recognized leaders not only in the fields of endonasal endoscopic surgery and endoscopic skull base surgery, but also in other essential specialties, such as radiology and pathology.

Aim of the course is indeed to provide a thorough journey in this exciting field, showing the importance of multidisciplinary, from the anatomy laboratory to the clinical, multispecialty collaboration. Five intense days are awaiting for you with the chance of interacting directly and informally with world experts in the field. The course includes an informal social dinner with all faculty and participants on Thursday July 12th. Aim of all the faculty is to share their expertise with you.

We look forward to seeing you in Brescia!

PROGRAM

JULY 9 | 13 2018

Hands-on section

Gross Anatomy Laboratory
University of Brescia

DAY 1

8:00

Registration

8:15

Welcome addresses

► P. Nicolai, M. Fontanella, L.F. Rodella

8:30

An endoscopic journey
of the skull base ► P. Nicolai

9:00

Endoscopic sinonasal anatomy:
landmarks, tips and pitfalls

► F. R. Canevari

9:20 - 12:30

Hands on dissection

Modular transphenoidal
approaches

12:30 - 13:30 Lunch

13:30 - 13:50

Large and Giant sellar and
sovasellar tumors: should
craniotomy be the first choice?

► R. Stefani

13:50 - 17:00

Hands on dissection

Transellar, transtuberulum,
transplanum approaches
and reconstruction

DAY 2

8:30

Imaging of skull base anatomy
and disease ► R. Maroldi

9:00 - 12:30

Hands on dissection

Endoscopic medial maxillectomies
Transpterygoid approach to the
cavernous sinus and petrous apex

12:30 - 13:30 Lunch

13:30 - 17:00

Hands on dissection

Transmaxillary approach to the
infratemporal fossa

DAY 3

8:30

Anterior skull base endoscopic
anatomy ► P. Battaglia

9:00 - 12:30

Hands on dissection

Transcribriform approach,
transclival approach and
odontoidectomy

12:30 - 13:30 Lunch

13:30 - 13:50

Endonasal endoscopic surgery
for clivus chordomas ► D. Bresson

13:50 - 17:00

Hands on dissection

Temporoparietal fascial flap for
posterior skull base reconstruction.
Endoscopic approaches to the orbit

Live Surgery section

Didactic room
Spedali Civili Brescia

DAY 4

8:00

Introduction to the live surgery
section of the course

► P. Nicolai, M. Fontanella

8:15

Clinical cases of the day

8:30 - 17:30

Live surgery and lectures

Lectures of the day

Endoscopic surgery for sinonasal
malignancies

► P. Nicolai

Endoscopic approaches

to the coronal plane:
indications and complications

► P. Herman

Pituitary adenomas

► P. Cappabianca

Sellar and skull base pathology:
the pathologist point of view

► P.L. Poliani

Imaging of sellar and parasellar
pathology ► R. Gasparotti

DAY 5

8:00

Clinical cases of the day

8:30 - 16:00

Live surgery and lectures

Lectures of the day

Transphenoidal surgery
for craniopharyngiomas

► F. Gentili

Cavernous sinus endoscopic
surgery ► D. Mazzatenta, E. Pasquini

Endonasal endoscopic surgery
for meningiomas ► D. Locatelli

Multiportal endoscopic
approaches to the skull base

► P. Castelnuovo

INTERNATIONAL SUMMER SCHOOL
